Allies Pour Through German Lines On a Front of Nearly Fifty Miles

UTTER ROUT OF HUNS ON THE ENTIRE SECTOR IS IMMINENT

Greatest Victory in Military History Appears to be in Making With British, French and Americans Reported to Have Made Complete Break in Hun Defenses. Slaughter of Enemy is Appalling, Thousands of Prisoners and Great Quantities of Supplies are Being Taken.

HUN CENTER OF DOUAI WITHIN GRASP

(By United Press)

The greatest victory in military history appears to be in the making. Attacking on a front of nearly 50 miles from south of St. Quentin to the vicinity of Douai, British, French and American troops are reported to have effected a complete break through nearly half of this front.

Through this gap the allied forces are pouring in pursuit of nearly a half a million of Germany's best soldiers, who are reported to be in utter rout.

Allied cavalry is galloping at the heels of the retreating Germans while our infantry is following in their wake, practically without opposition.

A great number of prisoners and vast quantities of material has been taken.

Slaughter of the enemy as the allied troops swept through on this front is reported to have been appalling.

More than 12,000 prisoners were taken in Tuesday's operations. A number greatly in excess of that is believed to have been captured yesterday.

The great German center of Douai appears to be within the allies' grasp.

The next defensive system prepared by the Germans—known as the Calencinnes line—lies fully fifteen miles to the eastward of the present battle front.

Withdrawing on Wide Sectors

Paris, Oct. 10.—The Germans are reported to be withdrawing on wide sectors on the whole 100 mile front between Cambrai and Rheims. They are employing countless machine guns to slacken the allies' push.

Toward Guise the allies are accentuating their progress and are reported to have reached the Cambré-Oise canal. This represents an additional advance of about 4 miles northeast of St. Quentin.

The railway from Laon to Man- leuge, via Guise, is now under fire.

Northeast of Vailly, Gen Mangin is advancing on the road toward Vrsoons.

Close to German Base

London, Oct. 10.—Allied troops are within two miles of the great German base Le Cateau, Field Marshal Haig reported today.

The British have begun to advance yesterday evening against stiffening resistance," the statement added.

Fighting Near Romagne

With the American First Army, Oct. 10.—Heavy fighting is under way in the region of Romagne, between the Meuse and the Argonne, where the Germans are rushing in reinforcements and concentrating artillery.

The enemy is frantically reinforcing the sides of what remains of the Argonne pocket while withdrawing in the center.

Allied airmen attacked the can-

New Turkish Government Seeks Peace

(By United Press.)

Washington, Oct. 10.—Representatives of the new Turkish government are negotiating with the allies as to the terms on which they may withdraw from the war, it was reliably reported here today. The allies are holding out for terms which were enforced on Bulgaria.

The new Turkish government formed after several days of rioting and anti-German demonstrations, has already been at work and was prepared to begin negotiations through neutrals as soon as the time was ripe.

tonment area east of the Meuse where the Germans were massing for a counter attack, shooting down 12 Germans with only one casualty.

Continuation of artillery fire cracked the Kriemhilde line near Romagne.

The enemy machine gunners put up quite a resistance especially in Cunel wood, which the advancing doughboys mopped up before noon. A great mass of German infantry, protected by machine gunners, was encountered on either side of the wood and the American advance was halted temporarily.

The artillery during the attack worked so fast that gunners threw

DEATH IS TRACED TO THE INFLUENZA

With Fatality From Pneumonia Brought on by This Disease, Officials Are Not Alarmed

FOUR NEW CASES REPORTED

Date For Lifting of Ban on Public Gatherings Definitely Fixed at Midnight, Oct. 20

Ordinance Permitting the Burning of Leaves Suspended
Mayor A. B. Irvin today announced that the ordinance permitting and controlling the burning of leaves is suspended indefinitely because of complaints that the order is annoying and injurious to persons sick with influenza and kindred diseases. This means no leaves shall be burned at any time of the day pending further orders from the mayor.

Although one death from pneumonia, having resulted from a serious case of the Spanish influenza, was reported today, health officials did not believe the epidemic in Rush county was any more serious than it has been. Mrs. Frank Moore, 935 North Arthur street, was the patient who died.

Four new cases of Spanish influenza were reported today in Rushville. Dr. J. B. Kinsinger, secretary of the city board of health, said that practically all of the cases previously reported were improving, although in a few instances pneumonia has developed, but none of these cases is said to be critical.

"We may expect a few cases each day for a while," said Dr. Kinsinger this morning. "This is bound to result because patients who are suffering with the influenza are certain to infect a few people, no matter what precautions are taken."

Twenty cases have been reported outside of Rushville to Dr. E. L. Wooden, county health officer. A few of these are serious, according to Dr. Wooden. Up until yesterday only three cases had been reported outside of the city, but this was due to the fact that physicians had not yet received the proper blanks on which to make reports. It is believed that there are more patients than the number reported suffering with the disease elsewhere in the county outside of Rushville. Physicians are urgently requested to report their cases to the proper health authorities, which is in accordance with the ruling of the state board of health.

With the ban on all public gatherings definitely fixed by the state board of health yesterday afternoon to continue until midnight, Oct. 20, the people of Rushville and Rush county settled down to ten days more of quietude and rest. It is not expected that any meetings of any sort, including social gatherings, will be held during this period. This, of course, affects all church services on Sunday as well as the usual weekly prayer meetings which are held on Thursday nights. The schools and moving picture shows will remain closed having been ordered to discontinue last Monday noon in instructions from the state board of health.

The order was issued by the

TWO QUOTAS WILL LEAVE ON TUESDAY

Train Schedule Received For Detachments To Be Sent To Warsaw And Rolling Prairie.

EIGHT MEN LISTED ON CALLS

Daily Report Of Board Shows 61 More Classified, Bringing Total Up to 721

The railway schedule was received today for the two quotas of military registrants who will leave Tuesday, October 15, to attend schools at Warsaw and Rolling Prairie, Ind. Both detachments will leave at 10:51 a. m. over the C. I. & W. At Indianapolis the Warsaw increment will board a special Big Four train and the other increment will board a special train on the L. E. & W. for Rolling Prairie.

Five men have been listed for induction on the Warsaw call, which is the county quota. Three have been listed for the Rolling Prairie call, if all of them meet the qualifications and those not examined are found physically fit for general military service, both quotas will be filled.

The men on the list to report to the Warsaw Chamber of Commerce, where they will be trained as convoy truck drivers, are: James E. Johnson and Ralph Moore of Carthage, Herchel Peters of Glenwood, Clyde White of Rushville, R. R. No. 2 and Karl Kennedy of this city. Those listed to be inducted into the Interlaken school at Rolling Prairie, are: Chester V. Dearing of Rushville, R. R. No. 5, O. F. Downey of Arlington and Jesse Grigsby of Richland township.

The board's daily report shows that 61 were classified yesterday, bringing the total classified by the local board up to 721, of which 330 are in class one, part of them temporarily. Twenty-nine of the number classified yesterday were put in class one and thirty-two cases were sent to the district board, making a total of 216 which have been sent to the higher board.

One examination was conducted yesterday and O. F. Downey of Arlington was found physically fit for general military service.

The board was notified today that Sammie D. Nelson of Carthage and John Roger Mills had been accepted in the S. A. T. C. at Butler college, having passed the examination and found fit for general military service. Requests for the induction papers of Paul E. Thorpe, Harold E. Perkins and Alfred P. Newhouse, who are attending school at Wabash college, were received.

The board announced that Charles O. Shaeffer of this city would be sent to Columbus Barracks, O., to take the place of John Frazee on the limited service quota sent by the local board, and that William T. Bailey, who is working near Glenwood, would be sent to Columbus Barracks, having been inducted by the local board at Baldwinsville, N. Y., where he registered.

The board today ordered forty class one registrants of the class of September 12, to report for physical examination next Monday and Tuesday, twenty on each day. These are the first of the late class called for examinations.

Mrs. B. O. Simpson visited in Ind-

RUSH COUNTY APPROACHES MILLION DOLLAR MARK TODAY

Ban on Gasless Sunday May be Partly Lifted
Washington, Oct. 10.—That the ban on Sunday automobile riding will soon be partly lifted, was indicated by the fuel administration today. They said a substitute for the autoless Sunday is being worked out and will be announced today.

TO TAKE TEST FOR
ADMITTANCE TO CAMP
S. L. Trabue Ordered To Report To Indiana University Tomorrow To Take Mathematics Exam.

MAY BE ADMITTED TO TAYLOR

Samuel L. Trabue will leave this evening for Bloomington, Ind., to report at 9 a. m. tomorrow at Indiana University to be examined in mathematics for entrance into the artillery officers training camp at Camp Taylor, Ky. If Mr. Trabue passes the mathematics test, he will probably be called into training within the next two or three weeks.

As early as last June Mr. Trabue applied to the war department and military authorities at camp Taylor for admittance into active service. The war department declined his offer because no men were being accepted except those of draft age and he could not be admitted to the artillery officers training camp on account of being more than forty years of age. Since the new draft law has been passed, his age is no bar to entering the artillery officers camp.

If Mr. Trabue is accepted for training, Rush county will be without a fuel administrator. He has served in this capacity since the creation of the federal fuel administration and his services here have been of great value, especially during the fuel shortage last winter.

FLORENCE C. M'MAHAN DEAD

Expires at Her Home Here This Morning at 7:35 O'clock

Florence C. McMahan, age sixty years, wife of Henry McMahan, died this morning at 7:30 o'clock at her home at 724 West Third street. She was born in Rush county and was the daughter of Philip and Nancy Whitlock. The deceased is survived by a husband and three children, Mrs. Ida Quyle of this city, Perry McMahan of Warren, Ohio, Omer McMahan of Cleveland, Ohio, four grandchildren and one great grandchild. She died from a complication of diseases. The funeral services will be private and will be held Saturday afternoon at 2 o'clock at the late residence and burial will take place in the East Hill cemetery.

Thomas Keating was taken to the penal farm yesterday to serve a sentence of ninety days. Mayor Irvin sentenced him last Monday and fined him \$50 and costs for bringing five quarts of intoxicating liquor here from Hamilton, Ohio.

With Over \$100,000 to go to Reach Warning is Issued Against too Much Optimism

LAST BIT MAY BE HARDEST

Loan Officials Hopeful of Going Over Tomorrow Because Saturday is Legal Holiday

THE BANKS MAY NOT CLOSE

Will Probably Remain Open if Goal is Not Reached in the County by Tomorrow Night

A feeling of elation was apparent at Liberty Loan county headquarters today because clearing house figures showed Rush county subscriptions approaching the million-dollar mark, but a warning was issued against optimism which might prevail following such an announcement as was made, because there is yet more than a cool hundred thousand dollars to be subscribed.

Liberty Loan officials and others in touch with the campaign locally were anxious for the county to go over the top by tomorrow, but there will have to be some fall hustling if the goal is reached by that date.

It was especially desired that the quota be passed this week and tomorrow will be the last opportunity since Saturday is Discovery Day, a legal holiday, on which national banks close. However, there was talk today of arranging an agreement among bankers to remain open Saturday so the loan campaign would not be slowed up. If the county does not go over tomorrow, there is a strong possibility that the banks will do business as usual Saturday.

One disappointment of the Fourth loan campaign has been the lack of small subscribers. The bulk of the money which has been subscribed is made up of large subscriptions. This was not true of the Third loan, because the number of subscribers exceeded those on either of the loans preceding it. It is known that there have already been two subscriptions close to \$25,000 and another one of \$20,000 yesterday served to boost the report today from one of the Rushville banking institutions.

Twenty-six Indiana counties in the Seventh Federal Reserve district have already gone over the top and loan officials are anxious that Rush county's "reached-the-goal" report shall not be delayed any longer than is absolutely necessary. Randolph county, with subscriptions totaling more than \$1,100,000, was the twenty-sixth to go over.

CAPT. GEO. BLISS OVERSEAS

Capt. George W. Bliss, Company G, 334th Infantry of the 84th Division, has arrived safely overseas, according to word received by his wife, formerly Miss Bookwalter, of Indianapolis. Capt. Bliss is the nephew of Will M. Bliss of this city and is well known in Rushville where he has frequently visited.

KAISER ABDICATES

Stockholm, Oct. 10.—Rumors are persistent here that the Kaiser had abdicated.

Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food.

Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man.

So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feron at any druggist.

This is the new discovery that pharmacologists are recommending because it is not expensive and speedily sets vigor and ambition into people who despaired of ever amounting to anything in life.

People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their

old-time confidence and energy in less than two weeks.

No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feron at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

Notes to Physicians: There is no secret about the formula of Bio-feron. It is printed on every package. Bio-feron is: Lactidin; Calcium Glycophosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Glucosin; Capsicum; Kola.

NOT BUMPED OFF BY THE DUTCH YET

John Kennedy Writes That he is Thankful For It After His Experience in Trenches

WAS OUT IN NO-MAN'S LAND

Says he Saw German Territory, Indicating His Regiment Was at South End of West Front

On his return to a rest camp after hiding in shell holes while sinking through No-Man's land and fighting the boche in the front line trenches, John Kennedy, with an infantry regiment, in France, sat down and wrote his parents, Mr. and Mrs. F. L. Kennedy. He began his letter with the calm announcement that the "Dutch" hadn't "bumped" him off yet.

Private Kennedy says that the shells fell close enough to throw the dirt in his face, which ought to be close enough for anybody to live and tell the story. He says he got far enough over the hill which his regiment faced to see German territory, which indicates that he was fighting on the southern end of the western front, where the Americans recently eradicated the St. Mihiel sector. His letter follows in part:

Well the "Dutch" haven't "bumped" me off yet, for which I am very thankful. I just got back from the front lines yesterday. I have had some mighty exciting times in the last week.

I can say that I have spent a few restless hours, lying in a shell hole in No-Man's land, under machine gun fire. It makes you think of lots of things you would otherwise never think of. They were coming close enough to me to knock dirt up in my face.

Our lines are at the foot of a long slope and their's are at the back side of the crest of the hill. I was far enough over the hill to see the German territory beyond.

You wanted to know when I left the states. Well it was the morning of the sixth at 7 o'clock that we pulled out of the harbor.

I never got to write to anybody yesterday for as soon as I got in from the trenches, I didn't want to loose any time in taking a good hot bath and getting some clean clothes. I got a new outfit from head to foot. I had torn my pants out at the trenches. Some of the boys had some "pets" when they came in, but luckily I did not have them. Talking about pets, you should see some of the rats they have in the trenches. Some of them look like big razor-back hogs, and there are plenty of them for everybody. No one gets cheated, and the pretty part of it is that they don't care whether they run around on your face or somebody else's. They are not particular whose face they play on.

We get plenty to eat while we are out there, although we only have two meals a day, 9 a. m. and 4:30 p. m.

Things as a general rule are pretty quiet during the day but at night and early morning business generally picks up a little.

I saw them bringing some German prisoners by here a few minutes ago. They were pretty ragged looking and unshaven.

I had a good supper yesterday. There was four of us boys got us two chickens and had them fried and had gravy and a lot of other stuff with them. We had all we could eat. It tasted mighty fine to me.

We had an awful hard rain here yesterday. It will make it bad for the boys that are in the trenches, for when it rains it gets so awful muddy here. We had fine weather while we were there.

COUGHED FIFTEEN YEARS

Coughs that hang on and grow worse in the night and weaken the sufferer are relieved by Foley's Honey and Tar oftener than by any other remedy. "R. F. Hall, Mable, Va., writes: 'For 15 years I was afflicted with a troublesome, bronchial cough and irritation of the throat. Foley's Honey and Tar relieved me after taking one bottle. The cough ceased and has not returned. No medicine stands higher as a family remedy than Foley's Honey and Tar.'"

NO POWDERED SUGAR SALE

Retailers Are Not Allowed to Offer it For Domestic Use

In reply to numerous inquiries the United States food administration addressed a bulletin to county federal food administrators, advising that powdered sugar may not be sold for domestic consumption, or by retail dealers. It is permissible to sell it on certificates to commercial manufacturers of food stuffs in the proportion of fifty per cent of 1917 consumption, and to commercial bakers on the same restrictions as obtain for cane sugar. The regulation is effective October 10th, but permission is to be extended wholesale and retail dealers to dispose of stocks on hand, if it is shown that these stocks were acquired in good faith and without purpose to evade the regulations relative to sugar.

It must be very discouraging to ask for an armistice and have the only answer an army.

All Loud in Praise of "Neutrone Prescription 99"

They all say "it does beat the Dutch" how quick "Neutrone Prescription 99" got rid of that Rheumatism. It's almost magic. "Neutrone Prescription 99" gets all forms of Rheumatism every time as sure as the sun rises. The first few doses show results. Those horrible Rheumatic pains stop, those poor inflamed joints go down, and oh! what a blessed relief. Ever try anything like that? Well, its true. There's no more fiery, vile smelling liniments, just a good, clean internal remedy that purifies the blood, drives all impurities out of the system—makes you feel like new, like doing things. Don't delay, get a bottle today and your troubles are over. 50c and \$1. PITMAN & WILSON and leading druggists everywhere.—(Adv.)

ONE AFTER EACH MEAL FOR A WEEK

You'll be surprised how good you will feel. Pepsinco cures stomach trouble; it regulates the bowels. It aids nature. Pepsinco is used by thousands every day, simply because it helps them.

In mild cases of stomach disorder a few doses are necessary. In severe cases Pepsinco is used with wonderful results.

Mr. C. says that he suffered for 15 years and Pepsinco helped him to such an extent that he was hearty and suffers no pain. You take Pepsinco and cure your stomach trouble.

An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the City to have it Re-bored.

Having recently installed in our shop a new machine for re-boring Ford motors we wish to call your attention to the fact that we are now prepared to re-bore and fit new over-size pistons and rings in your Ford motor.

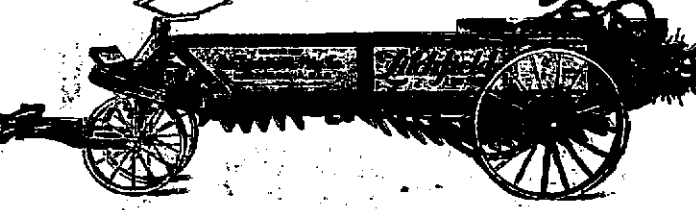

These are the results you obtain by re-boring

You increase power from 10 to 50 per cent.
You eliminate that elusive knock.
You stop the escaping gas around piston rings which abnormally heats the crank case.
You stop the admission of auxiliary air past the piston rings which dilutes the mixture.
You use less lubricating oil.
You use less gasoline.
You drive slower on high gear.
You take hills with perfect ease and grace.
You attain greater speed on level.
You eliminate the over-heating.
You stop fouling your plugs.

Our Price is Reasonable.
Bring in your motor and let us fix it up.

COMMON SPREADER SENSE

We are wondering if the readers of this paper realize that intelligent, reasonable common sense can be talked as well through the columns of a newspaper as in a personal interview. We want to appeal to your judgment and your intelligent "horse sense."

We want to emphasize the idea that the manufacturers of the Rushville Special spreader are not simply embodying one or two talking points but include more than three times as many worth while exclusive features in this machine as can be found in any other spreader now manufactured.

You may think we are over enthusiastic with regard to this manure spreader, but we are ready to prove that EVERY STATEMENT is backed by results that we can demonstrate very quickly if given a chance.

With very little explaining, most men readily understand why the long and short teeth in the Bull Dog Beater are draft reducers. Only a brief examination is necessary to understand why the expansion chambers in our NO CHOKE BOX are of great advantage in distribution. The Litchfield SELF CLEANING Conveyor used on this spreader is the only successful endless conveyor on the market.

The SELF OILING JOURNAL BEARINGS used on this spreader are years ahead of the bearings used on other machines. They are built like a freight car bearing and will stand more abuse than any other device.

Space does not permit us to mention more of these features, but if you will call on us we feel certain we can convince you that the sensible thing for you to do is to buy a Rushville Special manure spreader. We hope to have the opportunity of explaining this machine to you.

—Charles Russell, who is teaching in the Danville schools, is home for several days as the guest of his parents, Mr. and Mrs. John T. Russell.

—Mr. and Mrs. Albert Winship, Mr. and Mrs. Bert Davidson and Mr. and Mrs. Vincent Young, will leave in the morning for a two days motor trip to Turkey Run.

—Mrs. Whaley Leming and son returned to Shelbyville today after being here with Mr. Leming who was ill but has recovered. Mr. Leming is superintendent of the Rushville furniture factory.

—Miss Marguerite Wolcott, who is an English teacher in the high school at Monticello, Ind., is home for several days on account of the influenza epidemic which resulted in the closing of the schools there.

—Dr. and Mrs. M. O. Reynolds of Winfield, Kansas, went to Indianapolis this morning to be the guests of friends before returning to their home, after spending a few days here as the guests of Mr. and Mrs. William Rodebaugh in Seventh street.

Heeray for Banana Peel "Gels-It"

Only Real Way to Get Rid of Corns. Which do you prefer—a corn that hurts or a corn that doesn't? Buttery or the best? Only "Gels-It" can get rid of your corn the peel-off way, the blessed way. You don't need a pull.

"Can't Move Trouble Me, I Use 'Gels-It'". Why hump yourself up on the floor and with your jaws set and eyes popping from pain, jerk and gouge and cut your corn? Why irritate your toes with some salve or wrap your toe in a big painful bundle with some sticky tape or plaster? Life is too short. Use "Gels-It"—it takes a few seconds to apply and there's no fussing. Corns go. Wear new shoes if you want. Peel off the corn with your fingers—the whole thing, root and all, clear and clean, and it's gone! Only "Gels-It" can do this. Take no chances. "Gels-It" is the guaranteed, money-back corn-remover, the only sure way to get rid of a corn at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill.

**Cluck, Cluck.**

Fowls are on rations in Great Britain. But it isn't any old kind of a fowl that qualifies at that.

To deserve the food allowance fixed by the government the hen must show a record. If she delivers her quota of eggs she stays on the payroll—or grain-roll; but woe to the shacker. Her case is even harder than that of Israel in the Egyptian brick field; if she fails to provide meals she becomes one.

We do not learn that the same principle is applied in England to human slackers, but it would be a good rule to follow, both here and there. This is not a plea for cannibalism, of course. Even cannibals are understood to cook their enemies, not their unproductive friends.

But there is virtue in the recently expressed demand that shipyard workers be compelled to put in six days a week. Their wages are so high that many of them refuse to

Barrage**Peace?**

By CHARLES B. DRISCOLL
(Written for United Press.)

Yes, we want peace. That's the reason why

We have taken up arms once more, When we thought to have laid them forever by,

When we thought we had done with gore.

But have we not said to you, Horrible Hun,

That the Right is more precious than peace?

Still, you are Prussian. Only the gun

Speaks your language. So, arguments cease.

Your culture-steeped mind cannot comprehend

The things we are fighting for. Well, here is your answer then: War

To the end! Until you are beaten, it's WAR!

work more than four, and if these leisurely exquisites are given the option of working a complete week or going to the trenches they may forget the lure of the movies. Sitting in picture theatres and cheering the American flag displayed on films is a poor substitute for the work that is needed to keep that flag flying. Shipbuilders can hardly claim to be in a necessary occupation if they are generally unoccupied. Give them rifles—not exemptions. The 18 to 45 draft law will soon find men to fill their places.

We May Expect A Protest.

We may as well expect a howl from the newspaper publishers, now that congress has decreed the Congressional Record shall be printed on ordinary news paper instead of calendar book paper, a very expensive grade, because newspapers generally used the Record for wrapping papers to be put in the mails. The decision of congress is laudable, to say the least, especially since there has been such a demand for the conservation of paper. Incidentally, congress has decided to reduce the number of copies of the Record printed, but no one is going to complain about that.

The Amateurs.

They have checked up on the war gardens. The crop estimated is placed at \$525,000,000.00 according to the figures of the War Garden Commission.

National advertisers have a picturesque habit of expressing large totals in graphic form. "One year's output of Bunk's Chewing Gum stretched at full tension would reach to the moon." "The Stingo Soap Works ship enough carloads each day to shave the Bolsheviks." We would like to figure how many carrots and spinach can feed a given number, but it is more practical to guess how many gardeners contribute.

Rheumatism Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenbur, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenbur has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenbur relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days. All druggists can supply you.—(Adv.)

THIS DAY IN THE WAR

Oct. 10 1917

Mutiny reported in German navy.

Oct. 10, 1916

ted to the magnificent total.

Be good sports, you folks of Rush County. Give the big cities some of the credit. These flat-dwellers who did their share had more to learn than we had, and many must have felt that their contribution wouldn't make an appreciable difference. But you don't need an ophthalmologist to help you to read eleven figures in a row—an aggregation of assembled infinitesimals.

The amount would have been much larger if the amateurs had known that a garden needs preparation in the fall as much as in the spring. Ignorance of this meant failure for many of the novices, and now is the time to do the tilling and fertilizing that will atone for the omissions of last year.

The Public Must Help

At the request of the federal government patriotic merchants in Indiana have agreed not to lengthen the hours for business nor add to their list of employees on account of the Christmas business, which always is heavy. They will be unable to keep this agreement without serious loss unless the public will stand back of them with an equally patriotic determination to buy during October and November, to buy only essential things—including toys—and refrain from abuses of the credit and delivery systems. Indiana buyers will conserve the Christmas spirit by conforming strictly to these simple requirements.

The People Pay The Freight

The American Shipbuilding Company reports that for the 12 months ending June 30, 1918, the earnings represented 80 per cent on \$7,600,000 outstanding common stock. A statement by the president of the Company conveys the information that the greater part of the profits were from ship contracts with private interests, and that ships built for the Government are at a figure that is "fair and equitable" to both the Government and the company. There we have one cause of the high cost of living that ought to be looked into before further steps are taken to fix retail prices. When a concern is allowed to make a charge for ship construction that almost equals its invested capital of course the purchaser of those vessels must get his money back in the shape of which are in turn reflected in the cost to the consumer of the articles transported.

The Government already has a Department of Labor, a War Labor Board, and a War Labor Policies Board, and now Secretary of Labor Wilson writes that "we have built up within a week or so—a board the title of which has not yet been decided upon" but which will be looked upon as a general wage board. It is not surprising that the Secretary is having trouble finding a title for the new Labor Board. All the titles have already been taken.

The Woman's Suffrage bill in the senate appears to have within one vote of enough to carry it. When the fate of the bill is decided, you may depend upon it that the senators will either be suffragists or sufferers at the hands of the suffragists.

It is seldom that a man is pleased at being called an ugly name, but the marines are proudly advertising the fact that the Germans term them "devil-dogs".

Our prediction would have been that the gasless Sundays would remain about as long as the fine weather did.

You undoubtedly have already an excellent collection of Liberty bonds. We would strongly advise you to add to it as many specimens as possible of the Fourth Liberty Loan.

To the Central Powers

President Wilson has replied with his note. Have you replied with your Bond subscription? If not, back him at once with a liberal purchase. Remember that the Fourth Loan is going slowly all over the Nation. *Are you to blame?*

Farmers Trust Company

RULING ON INDUCTION IN NAVY AND MARINES

Provost Marshal Says Class One Men Who Registered Before Sept. 1 Are Not Available

SMALL NUMBER MAY ENLIST

All men who are in Class 1 and were registered before Sept. 12, being necessary to fill the present call for the army, will not be available for induction into the marine corps and the navy, according to a telegram received yesterday by Maj. Thomas L. Lyons, in charge of marine headquarters, in Indianapolis, from Provost Marshal General Crowder.

Any applicants of this status, registered before Sept. 12, in Class 1, who already have applied and been accepted for induction into these branches of service, will have their applications revoked. The provost marshal general states that this order, however, does not affect any one who is not in Class 1 or any man under the new registration of Sept. 12. All men who reached the age of 18 years since Sept. 12 will be accepted for enlistment immediately in the marine corps and without regard to the draft laws, upon presenting proof of their age.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or \$1.00 for extra large size, get a bottle of zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

Insure Your Business Against Prussian Piracy

Buy a "Liberty" Policy

You have fire insurance—life and accident insurance—indemnity insurance—to safeguard your business.

But there are other policies you must have for your own protection—policies of insurance against the Kaiser, whose power is the greatest peril and the greatest force of destruction in the world today.

Liberty Bonds are the Best Policy

Every Liberty Bond you buy is a policy of insurance against the destruction of your freedom, your happiness, your home, and your livelihood. You cannot have too much of that kind of insurance. France and Belgium and Serbia and Poland show what Prussian militarism would do to the United States if we should fail to crush it.

Lend to Your Utmost for Victory

Money is the vital factor in the winning of this war. You must lend more than before. The fourth Loan is larger; the obligation on each of us is greater.

Lend to Your Utmost! Buy Liberty Bonds!

REGULATIONS FOR MAILING PARCELS

Persons Sending Christmas Gifts to Soldiers Overseas Have to Conform to Postal Rules

LIMIT AS TO SIZE AND WEIGHT

Red Cross Will Provide Cartons and Will Inspect Each Parcel Before it is Mailed

Postmaster G. P. Hunt has received the postal regulations governing the shipment of Christmas parcels to the American Expeditionary Forces. They provide that all parcels shall be of standard size 3 by 4 by 9 inches and shall not be more than three pounds in weight and that they shall be mailed with the proper labels which are to be distributed in France to soldiers and forwarded to relatives in the United States. The cartons for mailing gifts to soldiers in France will be distributed by the Rush county chapter of American Red Cross. The regulations read in part as follows:

Each soldier or other member of the American Expeditionary Forces

in Europe will be allowed to receive one Christmas parcel for which purpose he will be furnished, through army channels, a "Christmas Parcel Label" bearing the correct name and address of the soldier or member and also the name of the person designated to mail the parcel. The labels will be prepared to serve as address labels for the parcels. The label furnished each soldier or other member of the American Expeditionary Forces will be sent by him to the person who is to mail the Christmas parcel. No Christmas parcel for members of the Expeditionary Forces in Europe will be accepted for transmission without such label.

The parcels must contain no prohibited or unmailable articles. Perishable food products are not permitted.

After the cartons have been filled by the persons who receive them, they shall be returned to a Red Cross receiving station where inspectors appointed by the Red Cross will carefully examine each parcel and supervise its wrapping and the affixing of the "Christmas Parcel Label" and the necessary postage stamps, the latter to be furnished by the sender of the parcel. When the parcels have thus been packed and wrapped and otherwise prepared for transmission, the Red Cross will affix to each parcel a certificate in the form of a seal showing that the parcel has been inspected and contains no prohibited or unmailable matter. Such certificates will be accepted by the Postal Service and Army authorities, as evidence that the parcels conform to the conditions prescribed and obviate the necessity of subsequent examination. The parcels must be left at the Red Cross receiving stations which will deposit them in the mails for dispatch.

Christmas parcels must bear the name and address of the sender.

Parcels may bear inscriptions such as "Please do not open until Christmas," "Merry Christmas," "Happy New Year," "With Best Wishes," and the like.

In order to assure the arrival of Christmas parcels must bear the name and address of the soldier or other member of the American Expeditionary Forces in Europe.

ed on or before November 20, 1918.

The foregoing does not in any way change the instructions heretofore issued regarding the acceptance of parcels up to 7 pounds in weight for members of the American Expeditionary Forces in Europe which contain articles sent in response to the written request of a member approved by his regimental commander or other officer authorized to approve such requests.

Red Cross Aids Italians

The American Red Cross rolling canteens in Italy recently distributed to 7,000 Italian soldiers packets containing socks, soap, cigarettes, chocolates, handkerchiefs, writing material and small mirrors and combs. Such packets will probably be distributed to some 40,000 more. They help to keep up the spirits of the fighters and are taken by the individual as evidence of America's direct participation in the war.

The three French societies, which collectively constitute the French Red Cross, have all been elected to honorary collective membership in the American Red Cross. This class of membership was created by the American Red Cross last spring.

Coughing Tires the Old

Elderly people, tired out and weakened with coughing, will find great help and comfort in

FOLEY'S HONEY-TAR

It relieves those chronic coughs, usually bronchial in character, and puts a soothing healing coating on a dry and tickling throat. It cures phlegm easily.

George Perry Randall, Dayton, Nevada, in his 51st year writes: "I take Foley's Honey-Tar for coughing and tickling in the throat. Sometimes the spell of coughing would last from five to ten minutes. I am very glad to tell you that Foley's Honey-Tar has relieved all my troubles."

F. B. JOHNSON

Mr. and Mrs. Samuel J. Lewis was host and hostess last evening for a dinner party honoring Lon Stewart, who leaves soon for foreign service. The rooms were decorated with golden rods for the occasion and the din-

ing table was adorned with a bouquet of asters. The guests were Mr. and Mrs. Lon Stewart and Mr. and Mrs. Thomas Arbuckle.

* * *

Mr. and Mrs. Albert Winship entertained last evening with a six o'clock dinner party in honor of Mr. and Mrs. William Allen, who will leave soon for their winter home in the South. The dining room table was beautifully decorated with a basket full of fall flowers of various hues. The guests included Mrs. Eunice Moore and son Melvin, Miss Lucy Inlow, Mrs. Emma Talbert, Mrs. Minnie Abercrombie and Will Inlow.

* * *

The bridge club, which was to have met this afternoon at the home of Mrs. Harry McMillin has been postponed on account of the Spanish influenza.

* * *

Mrs. Chester Cross and Mrs. Lowell Gartin entertained the members of the Cross Country club last evening with a six o'clock dinner at the home of the former, honoring Miss Bessie Morris, who will leave soon for a visit with friends in the West. Masses of fall flowers adorned the table, where a bounteous dinner was spread. The evening was spent most delightfully in music and a sociable good time.

* * *

No meeting of the Rebekah lodge, which was to have been held tomorrow evening has been postponed because of the epidemic.

The county's record was broken yesterday at a sale on the Bert Norris farm, when Mr. Norris donated a calf to the Noble township Red Cross, which brought \$144. First a collection of \$41.55 was taken, after which the calf was sold and resold several times and finally the auction was closed, when the calf went to Joe Amos.

At the sale of J. F. McKee on New Salem, last week a colt was sold and resold amounting to \$160 and the proceeds will go to the Noble township auxiliary. The colt was donated by Mr. McKee.

Christmas Packages For American Soldiers Held Prisoners Should be Sent to Red Cross

RESTRICTIONS ANNOUNCED

Washington, Oct. 10.—Christmas packages for American soldiers in German and Austrian prison camps must be received by the American Red Cross before Oct. 15. Only one package will be sent to each prisoner, it was announced today, and preference will be given to the package prepared by the prisoner's family.

Each package must not weigh more than eleven pounds and should bear the soldier's name, regiment, the name of the prison camp and the province in Germany or Austria in which the camp is situated. Packages are to be addressed to "Warehouse, Atlantic Division, American Red Cross, No. 20, East Fifteenth street New York city." The name and address of the sender and the words "Christmas package for American Prisoner of War" should appear on the package, which will be forwarded free of charge.

Fred Neutzenhelzer is seriously ill with pneumonia, following an attack of Spanish influenza, at his home in West Seventh street.

DOCTORS URGE PEOPLE TO USE MORE IRON AND PHOSPHATES

They Come Out Strong For Phosphated Iron

Leading doctors all over the country are rapidly learning that one of the preparations they can always depend on for all blood and nerve troubles is Phosphated Iron, they have found that it gives results and can be depended upon.

Phosphated Iron has proved a real red blood and nerve-builder to so many who are all run down and dragged out due to lack of fresh air, exercise, good food and clogged, poisoned blood. Scientists say Phosphated Iron builds up your body by building up your blood and nerves. Many physicians claim there would be few over-worked men, nervous women, bloodless old people and pale children, were the benefits of Phosphated Iron more widely known.

There is no need of anyone going around tired out, all in nerves on edge, suffering with poor blood and lack of energy when Phosphated Iron will make you feel like a live one, make you look 100 per cent better, give you restful sleep, brace you up so you can work with ease and enjoy life once again.

Get Phosphated Iron today and start in right, you owe it to yourself and friends to make just this one effort to regain health, strength and happiness.

To insure physicians and their patients getting the genuine phosphated iron we have put in capsules. Do not take pills or tablets. Insist on capsules.

Plum & Wilson, Druggists, and leading Druggists everywhere.

Be Sure What You Buy Is Correct

It's so easy to compromise with yourself when an inferior garment is shown you and say, "Well, I suppose it isn't as good as what I have been getting, but then, these days conditions have changed."

Conditions have changed—have changed so much that it is your duty to buy only the garments you can actually use. But there is no reason for accepting inferior quality, careless workmanship and indifferent style.

WOOLTEX Coats and Suits

in spite of fabric scarcity, remain up to the high standards of style and workmanship set for them by the Wooltex designers nearly a quarter of a century ago.

You will find in our Wooltex coat and suit showing the garments that will meet with your approval. Plan to purchase this week.

29.50 35.00 45.00 and up

Other Coats and Suits upwards from \$10.00

584 CASUALTIES REPORTED TODAY

Thirteen Hoosiers Named in the Two Lists, Including One Who Was Killed in Action

ONE MARINE WAS WOUNDED

Washington, Oct. 10.—Thirteen Hoosiers were among the 584 casualties reported in two lists issued by the war department today. The afternoon list contained 283 names and the morning list 301. The following Indiana soldiers were among the casualties:

Wounded severely: Gilbert Cox, Sanborn; Wiley Gallamore, Rushville; Clifford B. Sigler, Washington; William H. Deford, Circleville; Jesse H. Bierman, Indianapolis; Corp. David Pollock, Peru; Grover W. Books, Goshen; Warren W. Davis, Crawfordsville; Steve J. Cook, Frankfort.

Missing in action: Lee Jaymes, North Salem; Sergt. Charles William Terhune, Linton.

Died from airplane accident: Lt. Elmer Earl Rothenberger, Lafayette. Marine, wounded severely: A. Dupes, Indiana Harbor.

Previously Reported Here

The Rush county boy who is reported a casualty in today's list—Wiley Gallamore, son of Mr. and Mrs. Jesse Gallamore of northwest of Rushville—has previously been reported here. His parents received a letter from him, telling of the wound he sustained, before they received the official government message a few days ago. He was wounded in the leg and the first report reaching here several weeks ago that his leg had been amputated, but this proved to be false.

SEES RUSHVILLE SOLDIERS

Fred Higgs Meets Three Old Friends Soon After Landing Overseas

Fred Higgs saw several Rushville boys soon after landing in France, according to a letter which has been received by relatives from him. He is with Martin Carrol, John Schrieffer and Grover Wagoner, all of whom entered the service at the same time at Camp Taylor, Ky. They are attached to the 7th Sanitary train. Private Higgs says that about the first men he saw when he stepped on French soil were Carl Wright, Harold Wolcott, and Robert Humes. He did not mention in the letter whether or not he had yet been up near the front.

The War is Not Yet Over. We Will Fight Until It Is Won

When America goes to War, she goes to WAR TO WIN—and we are going to WIN THIS WAR if it takes every Man and every Dollar that we have—but don't make the mistake of thinking that the War is already won to a finality.

The Prussian Beast is torn, tired, and bleeding, but we must not call the war won, until the Prussian Beast has finally surrendered and has fully and completely accepted the entire Fourteen Points as laid down by President Wilson in his speech of January 8th.

Our boys are fighting and they will continue to fight until the final victory is won for humanity and liberty.

But we must do all that we can to help our boys—and it is up to you and to us to help—we must not fail them.

LET US ALL LEND THE WAY THEY FIGHT

IN THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF INDIANA IN BANKRUPTCY.

In the matter of John D. Stewart, Voluntary Bankrupt. Cause No. 4708.

To the creditors of John D. Stewart, voluntary bankrupt of Rushville, Rush County, State of Indiana:

You and each of you are hereby notified that on the 7th day of October, A. D. 1918, John D. Stewart was duly adjudged a bankrupt, and the first meeting of his creditors will be held at the office of Kiplinger & Smith, attorneys-at-law, Rushville, Indiana, at three o'clock p. m. Tuesday, October 22, 1918, at which time the creditors may appear, prove their claims, examine the bankrupt, appoint a trustee and transact such further business as may properly come before said meeting.

In order to receive consideration all claims must be properly endorsed on the outer side thereof with the name of the bankrupt, name and address of creditor, amount claimed, and name and address of counsel, if any.

Robert Meyer visited Russel Logan Monday evening and Tuesday.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate is not hot water on an empty stomach; it is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with indigestion, constipation, stomach trouble or rheumatism a real enthusiast of the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every

AMERICA MUST FEED 120,000,000 ALIENS

Utter Rout of Huns on The Entire Sector is Imminent

Continued from Page One
Cold water over the barrels of the guns to cool them. The army is enthusiastic over the success of the attack as it leaves no further defenses to the Germans. Romaine heights now held by us, also dominates the enemy positions for miles to the rear.

Germans in Wild Retreat

With the British Armies in France, Oct. 10.—The Germans are reported in wild retreat in the St. Quentin-Cambrai region. They are abandoning everything that would hamper their flight.

Allied cavalry is slashing at the

enemy's heels, while the infantry is marching in the wake of the horsemen in column formation.

Additional advances of more than 6 miles at some points have been reported following the break through the organized defenses on a front of a score of miles. Our troops have forced through the break and over the open country beyond.

The Germans appeared to be on the verge of an utter rout.

A tremendous explosion is reported to have wrecked the center of Cambrai.

Already swept by fire, 15 or 20 blocks in the heart of the city are completely in ruins.

Allied progress has been extended to north of the Scarpe and allied troops are reported headed for the great center of Douai.

The number of captured and slain Germans is staggering. Prisoners already fill the prepared cages to overflowing while the dead cover the ground everywhere. Allied troops participating in the advance escaped with slight losses.

Reports Capture of 2,000

Washington, Oct. 10.—Continued advance by the Americans east of the Meuse and penetration of the German line west of the Meuse, with the capture of 2,000 additional prisoners Wednesday, was reported by Gen. Pershing today.

Yanks Through Hun Line

With the American First Army, Oct. 10.—The Americans are through the Kriemhilde line on a front of nearly four miles.

They have smashed the organized German defenses in the region west of the Meuse and are advancing

northward, with only natural defenses between them and the Belgian border.

The Argonne pocket has been wiped out by the junction of French and Americans at Laon. The Americans are moving up through the forest with the engineers blazing the way through the woods and the tangled mass of wire.

Renew Attack at Laon

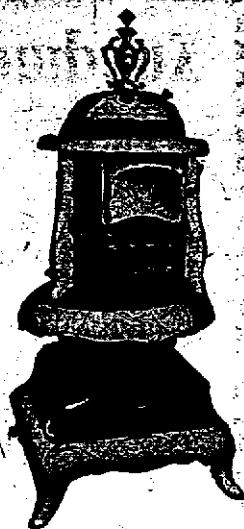

Paris, Oct. 10.—Renewal of the attack in the Laon region was announced today by the French war office. Progress was made there as well as east of St. Quentin and in the Champagne region.

British Near La Cateau

London, Oct. 10.—British cavalry is on the outskirts of La Cateau, according to dispatches received here this afternoon.

DEATH IS TRACED TO THE INFLUENZA

Why We Can and Do Guarantee This Genuine FURNACE STOVE

1—It absolutely heats the floor which is proven by the fact that the metal body above hot blast ring does not get red hot, under any circumstances.

2—It can be operated on at least one-third less coal than any other stove made today.

3—The fire bowl on this floor heater is deeply corrugated, giving 2000 square inches of radiating surface, while other stoves of this size have only 900 square inches.

4—The heat you send out the chimney in your stove, we deliver directly to the floor. How?

5—The hot blast in this heater does not burn out as the construction and location of same makes it impossible.

6—This heater is not only durable but is an ornament to any home, nickle is very smooth and plain.

7—The mica in this heater stays clean and clear all during the heating season.

DO NOT FORGET THIS HOT BLAST burns Wood, Soft Coal, Slack, Coke and Hard Coal perfectly.

We Deliver.

ESSENTIAL BUILDING NOW

When the world war ends there will be an immediate demand made on America for stupendous quantities of building materials with which to restore devastated Europe. The inevitable result will be that the supply of building materials for use in this country will be greatly reduced.

Every indication today is that good lumber is more plentiful and more readily obtained in this country now than it will be for several years to come. Today we have an ample supply of durable, dependable, perfectly manufactured

Stock of Lumber

Furthermore, when considered in its exchange value with other important commodities, lumber costs less today than it did before the war began.

Now, therefore, is the time to do essential building and repair work in town and country. Every architect, every contractor, every carpenter should make this plain to every person who has building in prospect. It means an important saving in time and trouble.

Pinnell-Tompkins Lumber Company

We Have Been Drafted

No, not drafted into the army, but our services have been
drafted by the housewives of Rushville

Into This Army

This vast army of busy housewives who toil and drudge over the full house cleaning, are recognizing the service that we offer. Send us the carpets, rugs, draperies—have us dry clean them. Our process will eliminate the dirt and dust and leave the rug like new. The sizing will not be removed, and it will not have the look and feeling of a hard beating.

Don't Be a Slacker!

And have your rugs and carpets all beaten out of shape. Phone us today and have us talk over our scientific way of doing it. We are always glad and ready to answer questions. Don't wait until the big rush starts, but get in line now.

XXth CENTURY CLEANERS & PRESSERS

"Karpets Kleaned Kleaner"

Malleable Range South Bend

Is the only range made using Keystone Copper Bearing Aluminum Fused Metal as a stove lining.

Their flues will not RUST, CORRODE or BURN OUT during a life-time of range service. Call and see the SOUTH BEND MALLEABLE and get our prices. Our amount of ranges is limited. The War Industries has curtailed the production of stoves for the last four months of 1918 to 50 per cent of the production of the last 4 months of 1917—the 50 per cent includes government orders.

PIGS GET WORMS VERY YOUNG

The time to commence feeding ACME WORM-BOUNCER is from the time they are old enough to eat. Feed from birth to maturity. It will only take a few cents worth to do it, and as an ounce of prevention is worth a pound of cure, it certainly pays to start the pig off right, and if you do so you can keep him right. Worms are persistent pests and they must be fought continuously. There is more money in keeping your pigs free of worms than in letting them get worms and even expel them.
